The Center for Neural Science (CNS) at New York University invites applications for a full-time tenure-track faculty position. We are particularly interested in junior scholars using innovative approaches to study the functions of neurons, synapses and circuits. The appointment can begin as early as September 1, 2017, pending administrative and budgetary approval.

CNS is an interactive research environment, and our faculty have broad interests including molecular and cellular neurobiology, sensory and motor systems, behavior and computation. More information on our department can be found at www.cns.nyu.edu.

The successful applicant will demonstrate scholarly excellence and a commitment to both graduate and undergraduate teaching. They will become part of a broad, collaborative community spanning the Faculty of Arts and Sciences and the School of Medicine. They will also benefit from being part of a joint neuroscience graduate program that encompasses faculty at both campuses.

To apply, please submit a single PDF with: (1) a cover letter that includes a description of your most significant research accomplishment(s), (2) a curriculum vitae, (3) a research statement no more than four pages in length describing your (a) goals / vision and (b) experience and qualifications, and (4) the contact information for three references. Candidates must have a Ph.D. or equivalent and postdoctoral experience by the time of application.

Applications must be received by January 1, 2017, and will be considered as they are received. More details on how to apply can be found at http://www.cns.nyu.edu/faculty-search.

The Faculty of Arts and Science at NYU is at the heart of a leading research university that spans the globe. We seek scholars of the highest caliber, who embody the diversity of the United States as well as the global society in which we live. We strongly encourage applications from women, racial and ethnic minorities, and other individuals who are under-represented in the profession, across color, creed, race, ethnic and national origin, physical ability, gender and sexual identity, or any other legally protected basis. NYU affirms the value of differing perspectives on the world as we strive to build the strongest possible university with the widest reach. To learn more about the FAS commitment to diversity, equality and inclusion, please read http://as.nyu.edu/page/diversityinitiative.
